

## EAA 1310 Annual Spring Seminar and Cookout

For those of us that fly around the Bradley Class Charlie Airspace and do everything to avoid communicating with A.T.C., this FAASTeam Seminar is for you! The professionals working at this ATC facility are there to help you out when everything is going fine and especially when things are starting to go bad in your aircraft. This is an excellent opportunity to get those questions that you were always curious about, answered. Like what really happens if I bust the Class C without a clearance or communication? Breakfast served 9:00 AM to 10:00 AM. Cookout to follow the seminar! Seminar is hosted by EAA Chapter 1310. Click on the link below to register TODAY!

**Directions:** Skylark Airpark is located 1/2 mile south of the CT-RT 140 intersection. Event is held in the EAA Chapter hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
